

LOGISTICS, TRANSPORTATION AND TRADE DIRECTORY

The ITGO Logistics, Transportation and Trade Directory features private, public and not-for-profit logistics, transportation and supply chain resources in the bi-national Buffalo Niagara region, or national companies doing business in the Buffalo Niagara region. The directory provides a searchable reference on ITGO's web site, and can be printed for real-time distribution, as well.

ITGO uses the Logistics, Transportation and Trade Directory as a resource in its role as "one-stop shop" for moving freight into, from and through the binational Buffalo Niagara region. The Directory is marketed regionally, through ITGO's relationship with the Port of New York and New Jersey, in Southern Ontario, in collaboration with regional economic development partners, through search engine marketing and on National Grid's shovelready.com
